Agrisens Food company limited.

Regarding on the problem of Dragon fruit lot number 1-608-912 founded the pesticide over the limit.

After we trace back to the supplier to find the cause of problem and solution to avoid the future problem.

We have very bad respond from them.
They give us no information on it.

So, we decided to banned this supplier.
And stop running business with them since the case came.

I do apologize on case. That we could not fix them.

Best regards.
