To Agrisen

On the 16-11-2020 there has been a sampling in the CPH airport.

It is sent from you on the 14-11-2020 lot. No. 1-608-912 Item 22-241 dragon fruit.

The test report shows a number of pesticides which has exceeded the limits.

You can see the test results in the attached file.

I also still need to have a respond on the previous letter regarding eggplant, this is a disappointment and furthermore I have not received test report this month (for December).

Please take action

Regards

Diana Christiansen
