

To Whom it may concern.

30 September 2019.

Agrisens Food company limited.

Regarding to your information about The 16th July 2019 had sampling of 12 different items and founded pesticides in 3 items in lot number 1-525-720.

We are very sorry for there error and we work with there 3 items as follow :

Mango, We stopped export and pause this items.

We will make the new whole process of HACCP with mango.

Also, mean that we will make all new test and sampling until they pass on the HACCP program again.

Chili, This case we founded that they contaminate from the neighbour farm.

Which we had the evidence of the pesticide they used.

We had block this farm, until they can show that they can control the error.

Kale, This case was for our staff.

They not practice follow our rule, by took other vegetable with logistic truck.

Cause the mix of other vegetable with the good one.

The staff who made that is process of stop hire.

For more information, Please do not hesitate to let me know.

Best regards.

Ongard Rattanasimontree.

Chief Executive Officer.
