Dear agrisen export

The 16th of July 2019 we had a sampling of 12 different items and sent to lab for analysis.

It is regarding shipment with lot. No. 1-525-720

I have already sent you the lab results, and my concern goes to all the pesticide which was found in 3 of the items. I would like to know, how you can prevent this from happening again?

I am looking forward for your reply, so we can solve this issue.

Best regards

Diana Christiansen
